

PRODUCT DETAILS

Excellent Cleansing and Moisturizing!

Pine Soap & Nano Silver Soap

Pine Oil Soap is a high quality bar soap made of pine needle oil and natural Olive oil. It is used as a total skin care and cleansing soap to reduce fine facial wrinkles and slow the natural aging process. Pine needle oil soap is an effective treatment for acne and problem skin because it is both anti-bacterial and anti-inflammatory.

It's positive effect on healing has been recorded in two scientific journals, Dongwee Bogam and Boncho Kangmok. A number of studies in Germany and Asia are currently underway as well.

Here's Why Our Users Love It:

- 80% of our users rank pine oil soap excellent for **MOISTURIZING!**
- Acne prone users report pine oil soap either **REDUCES** or **ENTIRELY ELIMINATES ACNE.**
- Chlorophyll, found in pine oil, **HEALS DAMAGED SKIN.**
- Vitamin E and A, in pine oil soap is an anti-oxydant which is considered to have an **ANTI-AGING** effect.
- The excellent cleaning effect **REDUCES FINE LINES** and **ENHANCES OVERALL APPEARANCE** of skin.

DIRECTIONS

1. Wash your hands and face with pine soap and warm water. First week, massage soap on face for about 10 seconds once a day and rinse completely. After a weeks initial use, you may leave on as long as 20 seconds for additional moisturizing if you wish.
2. Pine soap can also be used as overall body soap to rejuvenate and maintain skin elasticity.
